INTELLIGENCE INFORMATION HANDLING COMMITTEE
of the
UNITED STATES INTELLIGENCE BOARD

IHC-MM-375
12 January 1973

MEMORANDUM FOR: IHC Members

SUBJECT : Roles and Missions of the IHC and
Reorganization of the IHC Subcommittees
and the IHC Support Staff

1. Enclosed are some draft memoranda proposing a reorganization of the present IHC subcommittees as necessary to support the new roles and missions of the IHC; also discussed is the role of the IHC/SS.

2. These memoranda have not been reviewed by General Taylor. He has seen a very rough draft and based upon that review, instructed me to distribute these papers. They should be considered as "talking papers" for review at our next IHC meeting on 24 January 1973.

3. It is suggested that the IHC members also be prepared to discuss staffing of the subcommittees at the next IHC meeting.

4. General Taylor has also expressed an interest in changing the name of the IHC. One proposal is IIC or Intelligence Information Committee which portrays a broader connotation of responsibilities for the IHC which is the case. Dependent upon time available at our next meeting, it appears to be the appropriate time to discuss changing the name of the IHC.
